

HOLD ON FOREVER

(Music/Lyrics – Filippou Papakyriakou)

Lost in time, into the silence of night
Searching the joy of existence
Writing down whatever comes in my mind
Trying to reduce our distance

Lie all that you see
Dream within a dream
Hope a reason to live
to believe
there's much more to give

**I don't care for all you say
Nothing left to decay
Now I'm paving my own way
Hold on forever in me**

Deep inside, the truth is killing my mind
Those words a scream in my ears
Simple choice "you want to live or die?"
It worth the chance through the years
