

ILLUSION

(Music/Lyrics – Filippou Papakyriakou)

Illusions in darkness, reflections of a past life
don't let your life go wasted, what's done is done

There's still a chance
For a new start
Leave all that hurts
in the back of your mind

Abandoned in your fears you think you are alone
Your senses all these years have lead you wrong

**There is always a light
in the darkest of days
you must find your own truth
you have your own path to trace
And remember my friend
you are not so alone
There so many others
like you in this world**
