

SILENT VOICES

(Music/Lyrics – Filippou Papakyriakou)

The night is starring at me
peaces of a broken dream
it was a happy young child
suddenly I see...

What I've been and what I am
I can't remember this man
what he was fighting for
I'm not the same anymore

**Silent voices
all around me
lonely moments
and nothing to say**

**Cries and sadness
times of madness
tell me where all the
years gone away**

They say it's easy to change
put back your life in a range
what do they know about pain
no one is here, no one will

**Silent voices
all around me
lonely moments
and nothing to say**

**Cries and sadness
times of madness
tell me where all the
years gone away**
