

THE LIGHT ON YOUR WAY

(Music – Gus Dibelas/Filippos Papakyriakou, Lyrics – Tassos K)

All my life I seek a place to stay
Every day I try to set and light your way
Never asked you a thing to sacrifice
seek and choose the best from life is my advice

What has been done now you see
Still there is time to wake up and be

**Those things make life so mysterious
what you do, what you think, what you say,
You must decide and be serious
leave the past and begin from today**

In your prays I hear your cries and fears
I wash away all your pains with my tears
From the veils that never let you see
Every day I try to set you free

What has been done now you see
Still there is time to wake up and be

**Those things make life so mysterious
what you do, what you think, what you say,
You must decide and be serious
leave the past and begin from today**
